County Administrator
Madison County
P.O. Box 608
Canton, MS 39046

Dear Mark:

Re: Hazard Mitigation Plan

As you may recall, Madison County has worked with the Central Mississippi Planning and Development District (CMPDD) to develop and maintain the County's Hazard Mitigation Plan since it was first developed in 2005. Hazard Mitigation Plans are required under the Disaster Mitigation Act of 2000 in order for local jurisdictions to maintain grant eligibility for the Mitigation Grant Programs offered through the Mississippi Emergency Management Agency and the Federal Emergency Management Agency. In addition, plans must be reviewed and revised, as appropriate, to reflect changes in priorities, and resubmitted for approval every five years in order to maintain the County's grant eligibility.

The County's current plan will expire in November 2016, and it is important that the County includes the revision of this plan in its FY 2016 work program. If the County would like to continue working with CMPDD to revise and update the County's plan, or if you have any questions regarding your current plan please contact me (601)981-1511.

Sincerely,

Lesley Callender
Senior Planner
