Re: Request for Variance

Mr. Weeks:

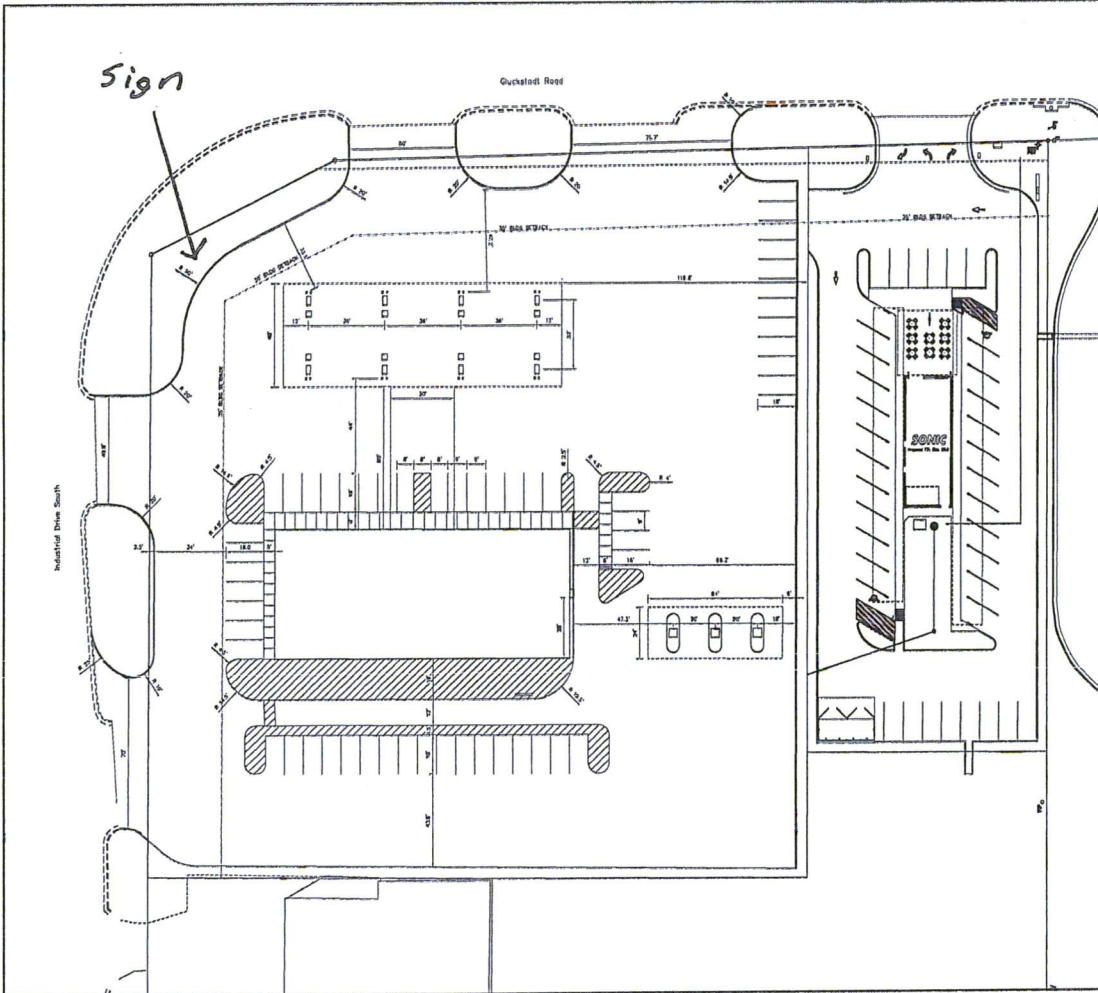

For your consideration I would like to submit a request for a variance in the sign height at the new shell gas station we are building at 1227 Gluckstadt Road, Madison.

Our site is located in close proximity to the interstate and visibility of the sign is crucial to the success of the development. The gas station directly across the street from our site has three signs. We are installing one sign and request it to be permitted a height of 35 feet.

I have enclosed a site plan showing the location of the sign, a drawing showing the dimensions, how the sign would look and pictures of the signs at the gas station across the street.

Thank you for your consideration in this matter.
