Subject: Authority to purchase in-car laptop and e-ticket equipment for Constable Brad Harbor and corresponding budget amendment

Dear Board Members:

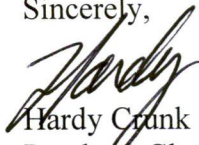

Per Mississippi law, all constable expenditures except for those purchases specifically mandated by law require prior board approval.

Newly elected Constable Brad Harbor has requested that the following be purchased for his use:

1. Dell Latitude laptop from Matrix at a price of \$2,323.58. The laptop would be used as part of the e-ticket system in Constable Harbor's vehicle. The laptop turned in by his predecessor is inoperable.
2. Docking station and installation of laptop in vehicle at cost of \$1,408.79 from Ozborn Communications.
3. Barcode (driver's license) reader from Pinnacle Networx at a cost of \$460.40. The barcode reader is part of the e-ticket system. The reader turned in by his predecessor is inoperable.
4. Vehicle mount for barcode reader from Pinnacle Networx at a cost of \$314.

The total cost of Constable Harbor's request is \$4,506.77. In addition to board authorization, purchase of this equipment would require approval of a budget amendment increasing Line Item 001-262-919 by \$4,506.54.

Sincerely,

  
Hardy Crunk  
Purchase Clerk

## MODEL M260

### The Affordable 2D and Magstripe Reader for Age/ID Verification

#### Standard Product Features

- High Performance 2D (PDF 417) Barcode Reading
- Built-in Three Track Magnetic Stripe Reader
- Small Footprint and Easy Operation
- Read AAMVA Standard Cards
- Compatible with Kiosk Assembly

The Model M260 incorporates a magnetic stripe reader with advanced technology 2D barcode reading capability. It can read any government issued ID card with magnetic stripe information and/or 2D barcodes. This creates a reliable and affordable business solution for Age Verification and transaction processing.

The data is also transferred to the host device via a standard USB interface or RS-232 serial port. In addition to the standard side access cable interface connector, the Model M260 has incorporated a bottom mounted interface connector, making it an ideal solution for kiosk application environments.

#### Ideal For:

Nightclubs, Bars, Casinos, Hotels, Law Enforcement, Patient Registration and Access Control. The Model M260 can be used anywhere your application requires reading an ID or Drivers' License.

Age Verification

Law Enforcement

Patient Check-in

Casino & Gaming
