Subject: Order providing for transportation of board members

Dear Board Members:

Per Mississippi Code 65-7-115, the board of supervisors of any county that is required to operate under the countywide system of road maintenance (unit system) is to have and is required to exercise jurisdiction over the public highways of the county. Said code section further provides that the board of supervisors of any such county "may by order duly adopted and entered on its minutes, provide for such transportation of individual members of the board as is necessary and essential in the performance of their duties."

I recommend that the board pass such an order providing for the purchase and furnishing of vehicles for the transportation of individual members of the board as is necessary and essential in the performance of their duties.

Sincerely,

  
Hardy Crunk  
Purchase Clerk
