January 2026

U.S. existing-home sales climbed 5.1% month-over-month and 1.4% year-over-year to a seasonally adjusted annual rate of 4.35 million units, the strongest pace in nearly three years, according to the National Association of REALTORS® (NAR). Lower mortgage rates and slower home price growth helped spur buyer activity, and sales increased month-over-month in every region. On an annual basis, sales rose in the South, held steady in the West and Midwest, and declined in the Northeast.

New Listings in the Central Mississippi REALTORS® service area increased 1.3 percent to 601. Pending Sales decreased 3.6 percent to 432. **Inventory decreased 2.3 percent to 1,845.**

Median Sales Price increased 7.2 percent from \$240,000 to \$257,250. Days on Market increased 2.9 percent to 72. **Months Supply of Inventory decreased 2.4 percent to 4.1.**

Nationally, there were 1.18 million homes for sale heading into January, an 18.1% decline from the previous month but 3.5% higher compared to the same period last year, representing a 3.3-month supply at the current sales pace, according to NAR. Meanwhile, the median existing-home price rose 0.4% from a year ago to \$405,400, reflecting a continued moderation in national price growth.
